

Together with Tenants - Residents to Residents Webinar

This webinar hosted by the NHF will focus on promoting the awareness of Together with Tenants from a residents' perspective.

Social housing residents are invited to come and join our conversation on Together with Tenants from a residents' point of view.

In 2019, the National Housing Federation (NHF) launched the Together with Tenants Charter which was developed by the Independent Tenant Advisory Panel and Member Steering Group. This was also.

What does this mean for residents? Our webinar will explore why residents need to work in partnership to encourage and improve the relationship between landlords and tenants and services to their homes.

Hear from tenants who are members of the NHF's Tenant Advisory Panel on how Together with Tenants has been put into practice by their landlord and the positive impact it has made in service delivery.
